

LONGBARN

CARPETS & CRAFTS

At Longbarn we make high quality carpets for people that value the good things in life. We create understated luxury.

Made from the finest natural materials like pure mohair, combed wool, felted wool, mercerized cotton and eucalyptus. Developed in beautiful colours and structures that form the core of our collections at Longbarn.

All carpets are being made by artisan craftsmen that produce our bespoke rugs in our very own production facility in Lichtenvoorde, in the eastern part of the Netherlands.

In cooperation with our design studio, that passionately develops and creates beautiful colours and structures that are quintessentially Longbarn Company's, these skilled craftsmen produce our rugs start to finish with a keen eye on detail both in production as well as in finishing.

LONGBARN

*“Drawing inspiration from everything nature has to offer...
Wide landscapes, fields of flowers, grasses, colours and textures.
Standing out because of the unexpected combination of the raw
and the sophisticated to create an unprecedented experience for
the senses.”*

DEW - Sand | LB326 | low cut pile | pure cotton

BASALT - Clay | LB319 | loop pile | felted wool

“The artistry of a sophisticated palette lies in the nature-inspired tones from the Longbarn collection, seamlessly intertwining with your interior space - a harmonious fusion where the outdoors and indoors meet.”

DEW - Shell | LB325 | low cut pile | pure cotton

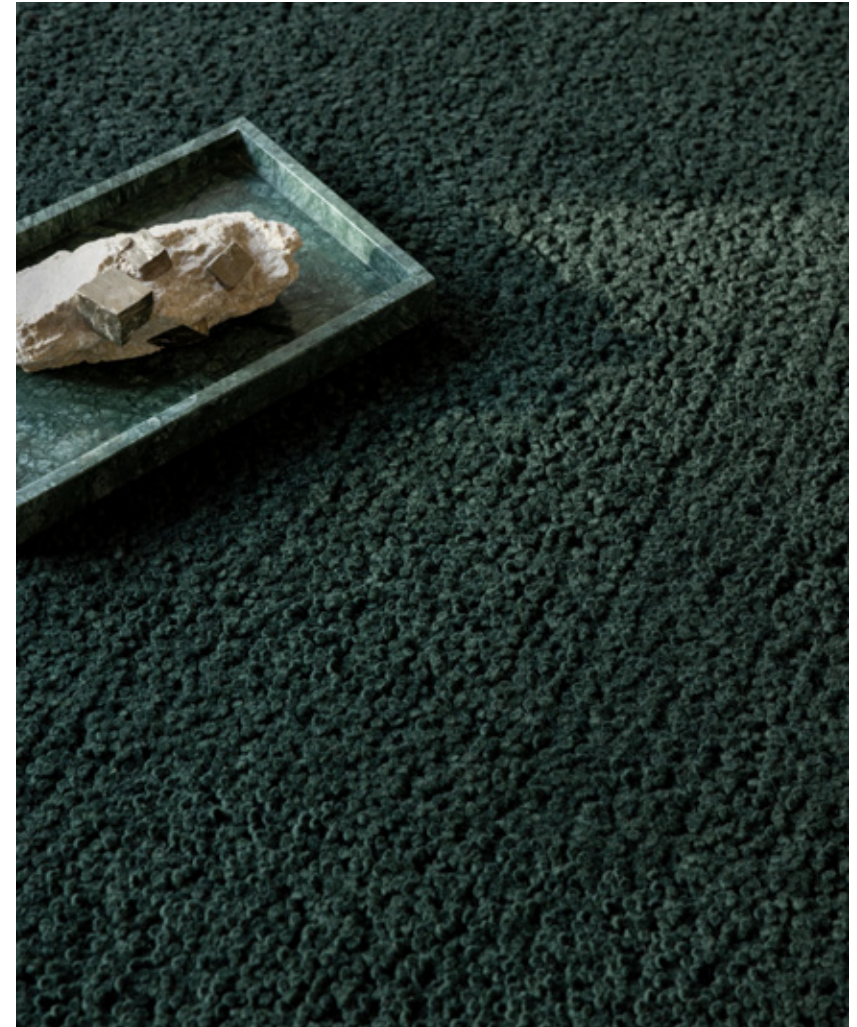

LISCIO - Moss | LB317 | low cut pile | eucalyptus, Tencel™

“Longbarn carpets radiate effortless luxury, infused with timeless elegance to elevate any interior with understated charm. Breathing life into our rugs, we meticulously craft them with a focus on aesthetics and tactile experiences.”

BASALT - Laurel | LB318 | low cut pile | felted wool

At Longbarn we have a collection of 30 core colours.

CUSTOM COLOURS

At Longbarn we have a collection of 30 core colours.
Each colour is available in all of our bespoke yarn qualities.
Next to this we offer the possibility to personalize your rug
and choose any imaginable colour.

CUSTOM MIXING

Custom mixes of serveral different qualities and colours are possible.
For further information on personal colour combinations please contact us.

SHAPES AND SIZES

All shapes and sizes can be manufactured up to a maximum of 430 x 850 cm.
The surface is calculated based on the smallest rectangle that encloses the shape.

PERSONAL DESIGN AND PATTERNS

For the specific properties of the various carpets please get in touch with
Longbarn to assess the technical feasibility of your design ideas.

MAINTENANCE

We advise you to vacuum your rug regularly. All our qualities have been thoroughly tested.
If you have any specific questions about the maintenance of your rug,
please contact our partner James via: james.eu

CARPET UNDERLAY

We strongly advise the use of carpet underlay in combination with the purchase
of a Longbarn rug. Carpet underlay prolongues the longevitiy of your rug,
is heat insulating and sound dampening and enhances overall comfort.
